## EXPERIENCE

### STL – Sterlite Technologies, Ahmedabad — Intern

JANUARY 2022 - JULY 2022

- Using Java and JDBC technologies added functionalities to existing client-server applications under supervision
- Responsible for building Docker-based environments
- Responsible for enhancing a build framework for continuous deployment and platform automation with the help of Jenkins
- Gained practical experience in working with SDLC, in a team of developers and designers
- Gained familiarity with AWS infrastructure

## EDUCATION

### UVPCE, GNU — B.Tech. Computer Engineering

JULY 2018 - MAY 2022

Graduated with a CGPA of 9.15

## PROJECTS

### MapReduce Implementation — Role: Developer

Building a MapReduce System similar to the MapReduce Paper.

Accompanying 6.824 Course. (WIP)

Tools Utilized: GoLang

### RPOS with Climate Control — Role: Developer

### Movie Recommendation System — Role: Developer

### GIST (YouTube captions to summary) — Role: Developer

## COURSES AND CERTIFICATES

### 6.824: Distributed Systems

By Robert Morris, MIT MOOC

### Algorithms: Design and Analysis I, II

By Tim Roughgarden, Stanford University, edX

### The Bits and Bytes of Computer Networking

By Google, Coursera

## SKILLS

C, Python & Java

Kubernetes & Docker

PostgreSQL/MySQL/MongoDb

Jenkins, AWS, Kafka

Distributed Systems

OS, Networks, Algorithms

Object Oriented Programming

Version Control – Git

Scripting (BASH)

Linux

## SOFT SKILLS/HOBBIES

Verbal/Non-Verbal  
Communication

Logical & Critical Thinking

Research & Analysis

Typing Speed Avg 90 WPM

Avid Reader

Hiking

Ukulele Player

## AWARDS

Earned a scholarship based  
on academic performance  
from the university in 2019

## LANGUAGES

English, Hindi, Gujarati
